Increase Your Present Income This Amount and Get Somewhere

There is Money in This Printed Message for You. Read It

We want every reader of this printed message to ask himself: "Do I want to rise above the ordinary, commonplace existence that goes with a small, limited income? Have I a desire to BE SOMEBODY in this world, to attain a place among the SUCCESSFUL men and women who really accomplish something?" The world has no use for failures, but it applauds SUCCESS. YOU CAN SUCCEED—you can make more money than you are now earning.

You can increase your income in the amounts we named above. Oh, yes you can. Don't say, "I simply cannot see how I can do it." That one remark is the earmark of failure. The "I can" and "I will" person is always welcomed by the hand-aiden of SUCCESS. What are you today—a salary slave, a wage earner, or depending on the meager profits from some small business; do you run a boarding house, or wait on table, or clerk in a store of any one of a thousand and one vocations that allow you but the mere necessities of life? WHY NOT DO BETTER? WHY NOT BE SOMEBODY? Yes, you can! This printed message is the opportunity, is the open sesame to bigger, brighter things; it is the calling of OPPORTUNITY—the fabled old lady who visits us so very, very seldom.

Why not be associated with SUCCESSFUL men and women who have adopted a profession that is not alone lucrative, but is pleasant, educational, performed at will, and can be successfully accomplished by any person who can read, write and observe. No, dear reader, we are not going to ask you to join a correspondence school and TRY FOR THE UNATTAINABLE. Nor to buy a batch of technical books that few, very few persons, outside the authors can understand. Listen, read and let this truth soak in, permeate! We are an organization of SUCCESSFUL men and women photoplaywrights banded together for the mutual benefit of each member. We are co-operative, we are SUCCESSFUL. We hold out to you your meas-

Children Cry FOR FLETCHER'S CASTORIA

Local squirrel hunters ought to visit at Bartlesville, Okla. A new report is current, taken from a Kansas City paper, that the squirrels have been so attracted by the big pecan crop there that they can be found in bunches, playing in the streets. Bartlesville seems to be unusually quiet for this season of the year.

Missouri is officially free of "ticks." Ripley county which was the last under quarantine has been released from Federal quarantine.

Misplaced Sympathy

No business is so intimately connected with the social and business life of a community as the newspaper. This is true in the cities as well as in the smallest town. The newspaper is the index of the town. A town may always be judged by the appearance of its paper. If the paper is slovenly, poorly printed, carelessly edited, and lax in moral tone, just so surely is the town in the same condition. The town is responsible for the kind and quality and the value of its newspaper. It sometimes happens that a town will not permit the publication of a creditable paper. There are several ways by which this may happen. The most common is to divide patronage in such a way that a first class paper cannot exist. A town can kill a good paper by patronizing a publication which is notoriously of no value. Every dollar paid to the worthless sheet weakens the capacity of the publisher who is trying to make a creditable publication. Often the money thrown away on worthless papers, if spent with a legitimate publication would make that publication profitable and give it the power of great usefulness. There is no place for sympathy in the financial end of the newspaper. No community should give advertising and patronage to a paper just because the paper needs the money. The newspaper business should occupy a higher plane. The publisher wants his business to be as legitimate as a bank. He doesn't want your money because his is a 'Home Paper,' nor your advertisement 'Just to Help Out.' If he can not give you a dollar's worth for every dollar paid he is swindling you. There are a great many papers that could easily be convinced in any court of taking money under false pretenses. The fact that I publish a paper in my home town is no reason for you to give me money. I want your money because I give you value received for every dollar and in no other way. Therefore I repeat, every community can have a good paper if it wants it and is responsible for a worthless publication of which it is perforce ashamed. More often the community needs reforming much worse than the papers.—Sturgeon Leader.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sold by Druggists. J. C. CHENEY, & CO., Toledo, Ohio. Take Hall's Family Pills for constipation.

Paper Worth More

The editors of good newspapers are discovering that they are getting too little for advertising, job-work and subscription. Some newspapers that charge a dollar a year for subscription ought to be ashamed to take the money but there are some newspapers that are worth more. A paper like the Courier is worth \$1.50 of anybody's money. It sold for \$1.00 per year twenty years ago when the cost of getting out each paper was not more than half, if half of the present cost. Ham that cost 10 cents a pound 20 years ago costs 20 now. Why should not a paper that was worth \$1.00 a year two decades ago be worth 50 per cent more now.
